

Global Manufacturer of Metalworking Fluids, Industrial Lubricants & Cleaners

ArrowLube

Lubricant Products

Visit www.chemarroweurope.com to learn more about our full line of metalworking fluids, industrial lubricants & cleaners.

Chem Arrow's high performance lubricants provide increased productivity and reduced maintenance costs. We manufacture our complete line of fluids using high quality petroleum base stocks. These oils were developed to provide superior wear, rust and oxidation protection as well as film strength characteristics

necessary for the new age machine tools.

Chem Arrow is a one stop solution for all your lubrication needs. With a complete line of hydraulic fluids, slideway lubricants, gear oils and specialty greases, we can supply all your lubricant requirements.

Lowers operating costs

Reduces maintenance & mechanical failure

Protects against wear & corrosion

Outstanding rust protection

Excellent value for money

ArrowLube E-200 Series — Spindle Oils

ArrowLube E-200 series is a premium performance range primarily designed for the lubrication of high-speed spindles in machine tools. It is also used in some critical hydraulic, circulation systems and air line oilers where the appropriate viscosity is selected.

Available ISO grades include: 2, 5, 10

ArrowLube E-500 Series — Slideway Lubricants

This is a series of highly refined lubricating oils formulated to offer uninterrupted operation of your machine tool's slideways. ArrowLube E-500 Series offers outstanding tackiness, reducing the amount of lube being washed away by metalworking fluids.

Available ISO grades include: 32, 68, 220

ArrowLube E-600 Series — Anti-Wear Hydraulic Oils

This is a series of premium hydraulic oils developed to provide superior anti-wear properties. ArrowLube E-600 Series contains highly refined base oils fortified with a variety of additives to minimize wear, corrosion, foaming and oxidation. This line has been formulated to meet the requirements of hydraulic pump manufacturers who need fluids that have anti-wear properties.

Available ISO grades include: 22, 32, 46, 68, 100, 150

ArrowLube E-660-N Series — Gear Oils

This series of premium quality lubricants, formulated with extreme pressure additives, is designed for use in enclosed industrial gear drives. The extreme pressure additives provide extended protection to industrial gears and bearings. The superior formulation extends fluid life and helps reduce varnish deposits on internal components. The ArrowLube E-660-N Series of gear oils is suited for a wide variety of gear systems.

Available ISO grades include: 100, 150, 220, 320, 460
